Introduction

1	The ATLAS Upgrade project						
	1.1	The Inner detector	19				
	1.2	The calorimeters and Muon Chambers	19				
	1.3	THe SLHC project	19				
		1.3.1 Phase 1 : The Insertable b-layer (IBL)	19				
		1.3.2 Phase 2 : Upgrade for high luminosity	19				
2 Principles of Silicon pixel sensors							
	2.1	The p-n junction	21				
	2.2	Radiation detection	21				
	2.3	The Hybrid Planar Pixel Sensor	21				
	2.4	Radiation damage in Silicon sensors					
	2.5	5 Other Silicon sensors					
3	TCAD Simulation models and experimental validation						
	3.1	1 Principles of TCAD simulation					
		3.1.1 The physics models	23				
		3.1.2 Boundary conditions	23				
		3.1.3 Process simulation	23

TABLE DES MATIÈRES

		3.1.4	Device simulation	23
	3.2	The M	fulti-Guard Ring structure	24
		3.2.1	Principles of guard ring structures	24
		3.2.2	Optimization of guard ring structures for radiation hardness	24
		3.2.3	Study of guard ring structure in slim edges planar pixel sensors $\ . \ .$	24
	3.3	The cl	narge amplification mechanism in highly irradiated silicon sensors	24
	3.4	Exper	imental validation	24
		3.4.1	Doping profile measurements	24
		3.4.2	Guard Ring measurements	24
		3.4.3	Current versus Bias characteristics	24
		3.4.4	Depletion Potential measurements	24
		3.4.5	Experimental evidence of the charge amplification mechanism \ldots	24
4	Fro	m TCA	AD simulation and experimental data to digitization	25
	4.1	Monte	• Carlo charge transport simulation	25
	4.1 4.2	Monte Planai	e Carlo charge transport simulation	25 25
	4.1 4.2	Monte Planar 4.2.1	e Carlo charge transport simulation	25 25
	4.1 4.2	Monte Planar 4.2.1	e Carlo charge transport simulation	25 25 25
	4.14.24.3	Monte Planar 4.2.1 Test b	e Carlo charge transport simulation	25252525
	4.14.24.3	Monte Planar 4.2.1 Test b 4.3.1	e Carlo charge transport simulation	 25 25 25 25 25
	4.14.24.3	Monte Planai 4.2.1 Test b 4.3.1 4.3.2	e Carlo charge transport simulation	 25 25 25 25 25 25
	4.14.24.3	Monte Planai 4.2.1 Test b 4.3.1 4.3.2 4.3.3	e Carlo charge transport simulation	 25 25 25 25 25 25 25 25
5	4.14.24.3Physical Physical Phys	Monte Planai 4.2.1 Test b 4.3.1 4.3.2 4.3.3	e Carlo charge transport simulation	 25 27
5	 4.1 4.2 4.3 Phy 	Monte Planar 4.2.1 Test b 4.3.1 4.3.2 4.3.3 vsics m	e Carlo charge transport simulation	 25 25 25 25 25 25 25 25 25 27 27
